THIRD YEAR TRAINING PROGRAM

PRACTICAL GOVERNMENT CONCENTRATION COURSE DESCRIPTIONS

BIBLICAL WORLD VIEW I

Because an accurate world view is critical to properly applying Truth in the arena of government, this series of courses will establish students in the Biblical principles that will enable them to correctly evaluate and stand for Christ on the issues of our day. Topics include creation, redemption, God's providence, the Biblical understanding of the rights of man, the Kingdom of God and others.

THE SEVEN MOUNTAINS OF INFLUENCE

Human society is affected by seven primary arenas of influence, one of which is government. Other arenas of influence include the family, education, and the media. In this course, students will learn to identify the various arenas of society, and how they interact and overlap. Particular focus will be given to the importance and influence of Government. The concept developed by this course is a powerful key to unlocking the potential of the Church to fulfill the Great Commission.

THE MIRACLE OF AMERICA

The founding of the United States of America changed the course and history of the World. In this class, students will learn the historical proof that America was birthed by the miraculous hand of God. We will study, among other things, God's intervention in events at pivotal moments, the inspiration our founders drew from God's word and their own relationship with Him, and the analogies between the founding of America for God's purpose and the deliverance of Israel from bondage in Egypt.

THE CHRISTIAN HERITAGE OF AMERICAN GOVERNMENT I

In this series of courses, students will study the history of American government. In Part 1, we will uncover the amazing truth about the events, ideas and people involved in the formation of the greatest nation in the history of the world. This first installment will cover British roots through the American Revolution, including political philosophy, religious persecution and migration, the revival known as the Great Awakening, the tyranny of King George III, slavery in the colonies, the Black Robe regiment, the Mayflower Compact, an analysis of the Declaration of Independence and many other topics.

GETTING INVOLVED TO MAKE A DIFFERENCE

Here, we will teach students how to engage in the political process at the grass roots level. We will explain the keys to grass roots activism, including engagement of elected officials, networking, monitoring legislation and policy developments, and party political processes.

GOVERNMENT ACCORDING TO THE BIBLE

This course will cover the purpose, role and proper sphere of government according to the Bible. It will also establish principles of good government according to Scripture, such as the republican form, separation of functions, civil rights, due process, civil disobedience, "natural law", the doctrine of lesser magistrates and many others. Students will learn what the Founders believed about these subjects and how their beliefs were rooted in the Christian faith and scripture.

ELECTION LAW AND PROCESS

This course will address election law and process in the United States, including the right to vote, political parties (history, form and function), campaign finance laws, caucuses and precincts, districts and other subjects.

THE ROLE OF THE CHURCH (AND PASTORS) IN GOVERNMENT

This very important course will inform students regarding the scriptural mandate and historical role that the Church and Pastors should play in the arena of government. We will address concerns that many may have which are rooted in misconceptions of “separation of church and state” and an overly narrow concept of modern “evangelism.” Students will be challenged and emboldened as they explore the truth about the views of our Founders, the history of the “Black Robe Regiment,” actual Supreme Court case law, concepts and examples from Scripture, U.S. Tax law and other sources.

THE UNITED STATES CONSTITUTION I

Practical Government Students will receive thorough instruction regarding the United States Constitution, the longest serving Constitution of any nation in the world. This first in a series of courses will teach the history of the Constitution, the Christian character of the document, an overview of its framework and provisions, as well as a review of the Amendments other than the Bill of Rights, which is covered in depth in a subsequent class.

CREATIONISM AND THE FLOOD

The principle that mankind was created by God is expressed in America’s founding charter, and is fundamental to a proper understanding of civil rights, the limited role of government and the worth of the individual. In this course, our students will be instructed in scientific and physical evidence supporting the Biblical accounts of creation and the Flood of Noah, and be equipped by this course to defend in the public sector these foundational events as historical facts.

LEGISLATIVE PROCESS

Here, students will learn how legislatures operate, the life and process of a “bill”, and strategies for effectiveness in a legislative context. The course will cover the role of parties, committees, and officers. We will address legislative functions such as investigation, oversight, confirmation of appointments, impeachment, budgets, and constitutional amendments. In subsequent terms, Students will personally visit the Colorado General Assembly and the Colorado Springs City Council, and may participate in a “Mock Legislature.”

THE NATION OF ISRAEL

How a nation relates to the Nation of Israel and the Jewish people is a fundamental aspect of policy. In this class, we will instruct students on the Biblical status of modern Israel as well as the History of the modern state of Israel and the Arab / Israeli conflict.

FOREIGN RELATIONS (INCLUDING ISLAMIC TERRORISM)

Practical government students will gain an understanding of basic information related to foreign policy, including the roots and history of Islamic terrorism. Topics will include the structure of the diplomatic services, important treaties, trade laws, and international law and the United Nations.

FAITH OF THE FOUNDERS

In this course, Students will learn how the vast majority of our Founding Fathers were in fact, devoted Christians. We will study their personal and public writings and see how the policies and laws they adopted were inspired by their faith in the God of the Bible.

PUBLIC SPEAKING AND DEBATE

This course will teach Practical Government Students the fundamentals of effective public speaking and equip them with skills to communicate effectively in the arena of government and public affairs.

BIBLICAL FREE ENTERPRISE

In Biblical Free Enterprise, students will learn the biblical principles of economics that should be followed by all governments and which have led to the United States becoming the most productive and prosperous nation in the history of the world.
