Visit awmi.net/jobs for up-to-date job listings and descriptions.

This page only lists a few of the job opportunities Charis Bible College and Andrew Wommack Ministries International offer. Open job positions with the ministry are posted on www.awmi.net/jobs and listings are updated bi-weekly. All job positions, unless otherwise specified, are in Woodland Park, CO.

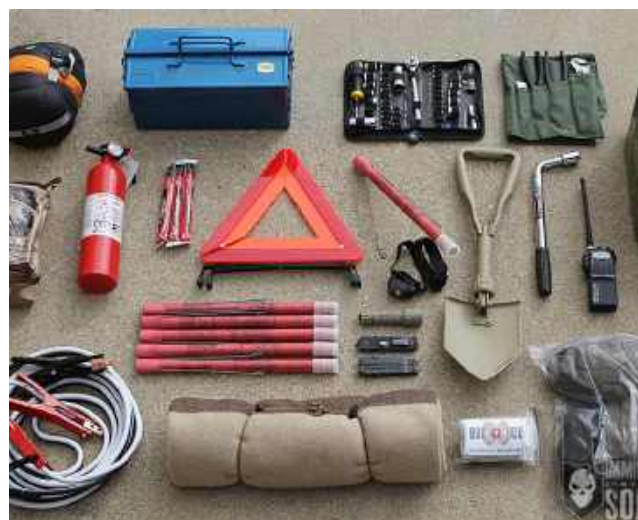

A wide-angle photograph of a winter scene. In the foreground, a snow-covered path leads towards a pond. The pond is partially frozen, with snow on its surface and banks. In the background, there is a large, multi-story building with a red roof and a prominent chimney. The building is surrounded by snow-covered trees and a wooden fence. The sky is overcast. The text "ARE YOU READY FOR WINTER?" is overlaid in white, bold, sans-serif font on the left side of the image.

**ARE YOU READY
FOR WINTER?**

- Car Battery – Older car batteries may die faster in winter conditions.
- Tire Tread and Air Pressure – Triple-peak rated tires with good tread are recommended for winter travel.
- Antifreeze Fluid Level – Keep extra antifreeze in your trunk to fill the reservoir through winter.
- Windshield-Wiper Blades – New blades help to fight ice build-up.
- Gas Tank – Prevent frozen gas lines and being stuck in deep snow without heat by keeping your gas gauge above a quarter full.

- An Ice Scraper and Snow Brush
- Properly-Inflated Spare Tire, Wheel Wrench, and Tripod Jack
- Shovel and Bag of Cat Litter for Traction
- Flashlight and Extra Batteries
- First Aid Kit
- Matches in a Waterproof Container
- Nonperishable, High-Energy Foods
- Bottled Water
- Winter Coat, Blankets, Mittens, Extra Socks, Hats, and Snow Boots

Public transportation is virtually non-existent in Woodland Park. Biking and walking are not recommended due to unpredictable winter conditions almost year-round. Ride-share and public transit like the Mountain Metro are available in Colorado Springs.

During winter storms, or when conditions require, CDOT will implement the Passenger Vehicle Traction Law. CDOT can implement the Passenger Vehicle Traction and Chain Laws on any state highway. During a Traction Law, all motorists are required to have EITHER:

- 4WD or AWD vehicle and 3/16" tread depth tires with a mud and snow designation (M+S icon) and 3/16" tread depth
- Winter tires (mountain-snowflake icon) and 3/16" tread depth
- Tires with an all-weather rating by the manufacturer and 3/16" tread depth chains or an approved alternative traction device

LIVING AT HIGH ALTITUDE

SLOWLY ACCLIMATE

Try to stay below 7,000 feet the first day. Give your body time to adjust. Avoid strenuous exercise the first day.

GIVE YOUR BODY TIME TO ADJUST

Avoid Strenuous exercise the first day.

LIMIT ALCOHOL INTAKE

Alcohol binds oxygen and water and robs your body of these two important nutrients. It also slows the acclimation process.

DRINK MORE WATER

Keep to a minimum of 1 liter of water for every 4 hours of inactivity and 1 liter of water for every 2 hours of activity.

ALWAYS TRAVEL WITH A COMPANION

If someone begins to experience severe coughing, wheezing, shortness of breath, or chest pain, get him or her to a lower altitude as quickly as possible.

CHECK WITH A MEDICAL ADVISOR

The effects of some drugs can be greatly increased at higher altitudes. Be sure to check with your doctor before exerting yourself at higher altitudes.

People will acclimatize at different rates. Make sure all members of your family are properly acclimated before going higher.

If you have any breathing difficulties, it may be best for you to live in Colorado Springs and come up to school for the 4-5 hour a day and then return to Colorado Springs.
